

THANK GOD FOR NEW IDEAS

Certificate in Practical Children's Ministry

She's all but 21 years old yet Ong Xuan is already into her seventh year of involvement in the Living Spring Fellowship's children's ministry.

In January 2010, she attended Scripture Union's **TEACH Fresh** Master's Workshop before signing up for all five modules of the **Certificate in Practical Children's Ministry**.

"The modules are very comprehensive and cover topics ranging from biblical basis of children's ministry to lesson planning, from creative worship to classroom management - almost everything you need to know for the ministry (theory wise); much like a survival guide for an effective children ministry," said Ong Xuan.

"Besides, what I like about the course is that it requires participants to fulfill practical requirements such as helping out at a Christian school's chapel service, Sunday School, children's camp and a holiday trek programme. The valuable feedback we get helps us to improve ourselves."

I'm so happy I signed up for the entire course! It is:

- **Comprehensive** – almost everything a teacher needs to know for children's ministry!
- **Creative** – gives a whole new perspective
- **Contextualised** – hands-on practicum in mission schools, churches and holiday trek programme and camps.

Ong Xuan

The Certificate in Practical Children's Ministry is a TEACH Fresh Training Initiative of Scripture Union Singapore. It provides ministry leaders who want to grow in their love of God and for children the following:

- **Systematic learning of basic but creative, cutting-edge knowledge in children's ministry.**
- **Service opportunities through compulsory hands-on practicum arrangements in mission schools, churches and camps.**
- **Skills to reach and raise the next generation of 4-to-14-year-olds to become agents of God's transformation in the world.**

Council Member for Training Genevieve Tang Speaks:

We believe that training is an on-going and life-long process, and that those ministering to children, young people and families should be equipped with effective, cutting-edge training that provides such compulsory hands-on practicum and tools which we offer in our Certificate programme.

Thank God for the Overwhelming Response!

MODULE 5 : TEACHER DEVELOPMENT
